

IMPORTANT NOTICE

To: HORSE OWNERS AND TRAINERS

Upon the recommendations of the Nevada Department of Agriculture's State Veterinarian, Dr. JJ. Goicoechea and the Nevada Gaming Control Board's State Veterinarian, Dr. Richard Scott, ***all horses entered to participate at approved pari-mutuel race tracks in Nevada must first provide a negative Piroplasmosis test.*** Piroplasmosis is caused by *Theileria equi* and has emerged in the racing industry in recent years.

A negative cELISA test, within the last 12 months, for *Theileria equi* will be required for all race horses.

No horse will be allowed to enter unless a current health certificate, negative test for Equine Infectious Anemia, and a negative test for *Theileria equi* are on file with the racing secretary.

The health certificate is valid for 30 days when it is made by a licensed veterinarian in the state where the examination was completed. Equine Infectious Anemia and Piroplasmosis tests are valid for twelve (12) months from the date of sample collection.
